

## GRAFTON'S NIMBY BRIDGE Jayne Miller 2019

Our bridge is as bent as a dog's hind leg  
once it was a train track way back when

They put a dredge to the water laid the brick steel and mortar  
in the heat of the day. in the heat of the day.

Well that old bridge she's falling down  
bit by bit and all around  
With traffic stalling creeping and a crawling  
we pray to reach the other side  
and we pray we won't drown  
When the rivers rise  
..The rivers rise... the rivers rise

Well its fifty years on and were still praying  
from our grandfather's time to the new generation  
We just can't decide on the second bi pass  
because we don't want the bridge in our backyard

The second bridge is like the second coming  
we have prayed for the new one that damn hard  
We want a new bridge and we want it today  
but don't let the old one slip away

And don't put the bridge in our back yard

Well every new election \*R.M.S. plan erection  
of a brand new bridge in the fiftieth selection  
They plan to dredge the water lay the brick steel and mortar  
in the heat of the day...in the heat of the day...

Well its fifty years on and we are still waiting  
from our grandfather's time to the new generation  
We want a second bridge drive to school with our kids  
but we don't want the bridge through our back yard

What do we want...?...a bridge...  
when do we want it...?...now..  
when, when, when,...? NOW

Dedicated to RMS (Roads and Maritime Services)  
New bridge in Old Grafton New South Wales
